Building Contracting Civil Contracting

- Dx General Contracting LLC is a prominent contracting company in the UAE based in Abu Dhabi and undertakes all types of civil contracting tasks.
- We offer a complete range of civil contracting services in the construction field including pre-construction, scheduling, budgeting and as a full service contractor, we have in-house abilities to take projects through concept, design, construction, and post-construction maintenance services.
- Our qualified engineers and technical experts are fully trained for civil works and with their experience, practical knowledge & management skills, they ensure timely delivery of projects in today's highly diverse and competitive market. With new build concepts and best practices, our team works closely with clients to help them define their next new build or renovation project.

MEP Contracting

- We undertake turn-key residential, commercial and industrial projects.
- This includes timely delivery of quality and reliable services, periodic audits of the entire MEP system, repairs and replacement of required parts and finally calibration of the system as well.
- Water Supply & Drainage
- Our team is renowned for its ability to design and install systems that meet or exceed local authority requirements and require minimal maintenance throughout the life of your project.
- Electrical
- It is important that electrical installations be carried out by a highly experienced team, and even our foremen have over 18 years of local experience.

Air Conditioning

- Our system designs are carefully worked on to ensure the required cooling levels at maximum efficiency, which is achieved through rigorous heat load & air flow calculations and appropriate duct & insulation design.
- The company employs highly qualified project managers, site engineers, draughtsman, and skilled labour from the various trades. Employee turnover is one of the lowest amongst all competitors, a sign that the company provides an ethical and fair working atmosphere. This is significant because it assures a hardworking and committed construction team.

Facility Management Services Building Maintenance Services

We at Dx General Contracting LLC are committed to providing our customers with consistent, quality services, which are recognized as contributing factors towards the operational successes of our customers' organizations. We will continuously strive to improve our processes through customer input, workforce development, and self-evaluation. With these commitments, we will seek to develop, maintain, and enhance our recognition in the building service industry as an invaluable partner, thereby leading to growth opportunities and an improved marketplace position.
